Agree to Purchase a Cockapoo Puppy: Date of Birth: _____

Sex: _____ Color: _____

Holding Agreement: A \$300 deposit will hold a specific puppy. Once the deposit has been received the puppy is taken off the website, making it unavailable to sell to any other party, therefore the deposit is non-refundable and non-transferrable under any circumstances unless the seller is unable to provide you with said puppy for health reasons. Please also understand that deposits are for one specific puppy and cannot be transferred to another puppy, it is then applied to the purchase price of the puppy. If purchasing within Wisconsin, State Sales Tax will be applied to the purchase price. Please note if at any time we feel uncomfortable with an adopting family we reserve the right to cancel the contract by refunding half the deposit. This contract is valid to the original buyer only (stated above,) and by purchasing or placing a deposit the buyer agrees to the following contract:

Health Guarantee Contract

We hereby certify that this puppy has been de-wormed, vet checked, and properly vaccinated to date. It is the sole responsibility of the purchaser(s) to see that these vaccinations are kept up to date. Buyer understands that the puppy will need boosters of the initial vaccinations until the "puppy series" is completed, and then once annually thereafter, if the puppy is not kept up to date on necessary vaccinations this contract is void. The buyer has been provided with a copy of said puppy's medical history (vaccinations and de-wormings) and hereby agrees to have the puppy examined, at buyer's expense, by a licensed veterinarian of choice within 72 hours from the date buyer assumes physical custody of puppy. Sundays and Public holidays are excluded as they are not seen as normal working days. We do not require the initial puppy check to be seen by your regular vet, if they are unavailable within that time frame please be sure to find another available clinic, no exceptions will be made! If said puppy is not seen within 72 hours by a licensed veterinarian this contract is void, and if genetic problems occur we will need written proof that the puppy was originally seen within 72 hours of receiving them. We guarantee the puppy to be pet quality and free of any life threatening congenital defects for one year from the puppy's date of birth. If upon examination by a licensed veterinarian of your choice, this puppy is found to have a life threatening congenital health defect, have your veterinarian document this condition with a written, signed statement clearly stating the symptoms, exact problem, severity, and the tests that have been done to prove it. (Please understand we will need medical proof of a life threatening genetic defect, the guarantee cannot be based on a theory, even if from a veterinarian.) The buyer will then notify the seller of the situation within 2 business days. Failure to return the written report within 24 hours invalidates this contract. If, by a licensed veterinarian, the puppy is found to have a life threatening congenital defect the seller will replace the puppy with one of equal value upon availability (within one year) or buyer may choose to keep the puppy and accept all responsibilities, with the buyer understanding that no refunds will be given and the replacement puppy may not be from the same parents as the original puppy. If the buyer rejects a replacement puppy then all sales become final. Seller also reserves the right to have a second vet of choice evaluate the condition within ten days following the receipt of the animal before any exchange will be issued. Buyer is responsible for all transportation and/or shipping costs to replace the puppy and seller is not responsible for any veterinary expenses related to the certification that the animal is unfit or otherwise. If a puppy is to be replaced the returned puppy must be accompanied by a written statement from a licensed veterinarian indicating that: all shots are up to date, the puppy/dog has had a negative fecal within 30 days, the puppy/dog has

had a negative heartworm test within 30 days and that the puppy/dog appears to have been well cared for. If the puppy dies within one year from the date of birth a necropsy must be performed to determine if the reason was genetic or congenital. The buyer will be responsible for these charges and in no way is the breeder responsible for payment of this exam or any other medical bills. Buyer understands that the following slight, genetic or congenital defects are not considered serious or life threatening and therefore are not covered by this guarantee: umbilical hernia, inguinal hernia, cherry eye, undescended testical, under bite or over bite, grade 1-2 heart murmur and grade 1 or 2 patellas. This guarantee also does not cover Hypoglycemia, Coccidiosis, Kennel Cough, Giardia, Mites, Fleas, Ticks, Ringworm or Ear Infections once the puppy has left the sellers hands due to these being caused by stress of moving or easily picked up during travel. There are all types of parasites that lie dormant and that can be brought on by stress or change of environment and there is no way to predict how a puppy will cope with the change of a new home and owners. Internal parasites, including worms, Coccidia, and Giardia are one of the major causes of problems in all breeds of young puppies. Even though your puppy has been de-wormed several times before you adopted them, please understand that today's wormers are only effective against adult worms and do not kill larva that can remain in your pups system and show up in a stool sample. Young puppies need frequent de-worming to protect them as they develop. It is the responsibility of the buyer(s) to continue regular de-worming of their puppy or this contract is void.

The seller assumes no responsibility of said puppy after the puppy leaves the sellers premises for medical expenses, disease, mortality, landlord disapproval, allergies, shedding, personality, training, disagreement of the family, or any other reasons not relating to genetics, and no refunds will be given. Under no circumstances is the seller responsible for any veterinarian bills or shipping expenses incurred with the puppy after time of sale. In the case of a legal dispute between parties the buyer is responsible for any and all legal fees for both the buyer and seller.

Puppies can be picked up at 7 weeks old and shipped at 8 weeks old. When I post a puppy online I also post the dates that they are available to go home. I prefer you make time in your schedule to pick up your puppy the date they are ready for home but I do allow a 3 day grace period for pickups before I charge a boarding fee. For example if your puppy is ready for home March 10th you will have until March 13th to pick them up before I charge a boarding fee. If you are not able or willing to pick up your puppy within that 3 day grace period I do charge a boarding fee of \$20 per each day they are left here. If you are having your puppy shipped I aim to ship them the day they turn 8 weeks old unless there are not any flights available. If you are not willing/able to pick up your puppy the date that they are ready to be shipped I do charge a boarding fee of \$20 per each day that they are here. Payment is due in full at the time of pickup, or at least ten days before they are shipped, or by the age of 8 weeks if being boarded. Puppies not paid for in full by 8 weeks will be placed back for sale and you will lose your deposit. No personal checks or Paypal for final payment will be accepted- Cash, Money Orders or Cashier's checks only. The purchaser(s) have read this agreement and the health guarantee from the seller, understand it, and agree to abide by the terms stated above. If the puppy is shipped and the contract cannot be signed by the purchaser(s) payment will take place of the signature and be considered an agreement between both parties
